# SlidePro Software

## On-Demand Slide Printing Solution

### SlidePro Software

#### Features

- On-demand slide printing software
- Import patient data via text file
- Customize print templates
- Print Non-Gyn Slides
- Code128 linear and 2D barcodes
- Print slides compatible with the BD Focal Point™ Slide Profiler

### Options and Add-Ons

#### OCR 7over 7 add-on

- Print slides compatible with the Hologic ThinPrep® Imaging System

#### LIS Integration via ODBC add-on

- Lookup patient data directly from the LIS via ODBC (requires ODBC-ready LIS)

#### Annual Support and Maintenance Plan

- Support via Telephone and Remote Access
- Published Updates and Maintenance Releases

#### Scanner Stand

- Adjustable-height stand for use with Cognex Dataman 700 Series and Handheld Products 4600 Series barcode scanners

#### SlidePro Carrier

- Fixed-base carrier ensures exact placement of specimen container for accurate barcode reads every time

### Minimum System Requirements

- Operating System: Windows XP (Service Pack 3 is recommended)
- Memory: Minimum 256MB RAM (1GB is recommended)
- Best Screen Resolution: 1024 x 768
- One (1) USB Port (for barcode scanner)
- One (1) Network Port (LAN or direct connect via crossover cable)
- Mouse
- Keyboard
- Barcode Scanner in USB keyboard mode
- 50mb free disk space (25% free disk space is recommended for efficient Windows XP system operation)
- Delimited text file, or LIS Integration add-on
- Thermo Scientific SlideMate Printer
